

A vibrant, stylized illustration of a futuristic cityscape. The scene is filled with tall, sleek skyscrapers in various shades of blue and purple. The sky is a bright, hazy yellow, populated by several flying saucers and a sleek, white jet. In the foreground, a large, glowing blue sphere and a smaller, disc-shaped object float above a city street. A building on the right has a sign that reads "PALM" in orange. The overall atmosphere is one of advanced technology and urban development.

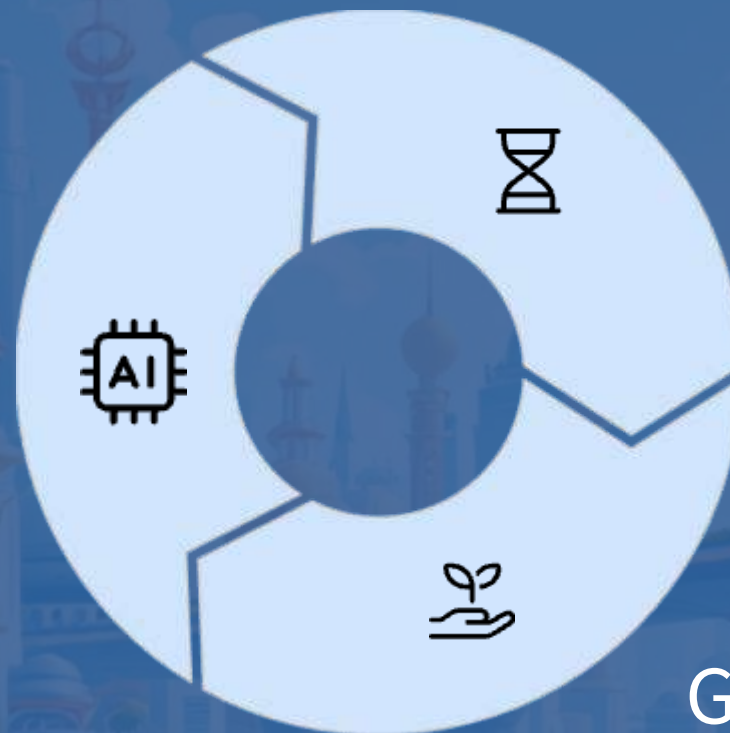

# Suai

Collecting Sui Move Code Dataset for AI Tuning

# Our Vision

## Collaborate

Create harmony between AI and human developers.

## Expand

Help experts build quicker and easier.

## Growth

Drive Sui adoption through better development tools.

# Why?

Current AIs **Struggle** with Smart Contracts

## Speaker:

AI didn't write a good code. I need to patch almost every line.

## Team:

AI can only provide a guild of process and structure.

## Myself:

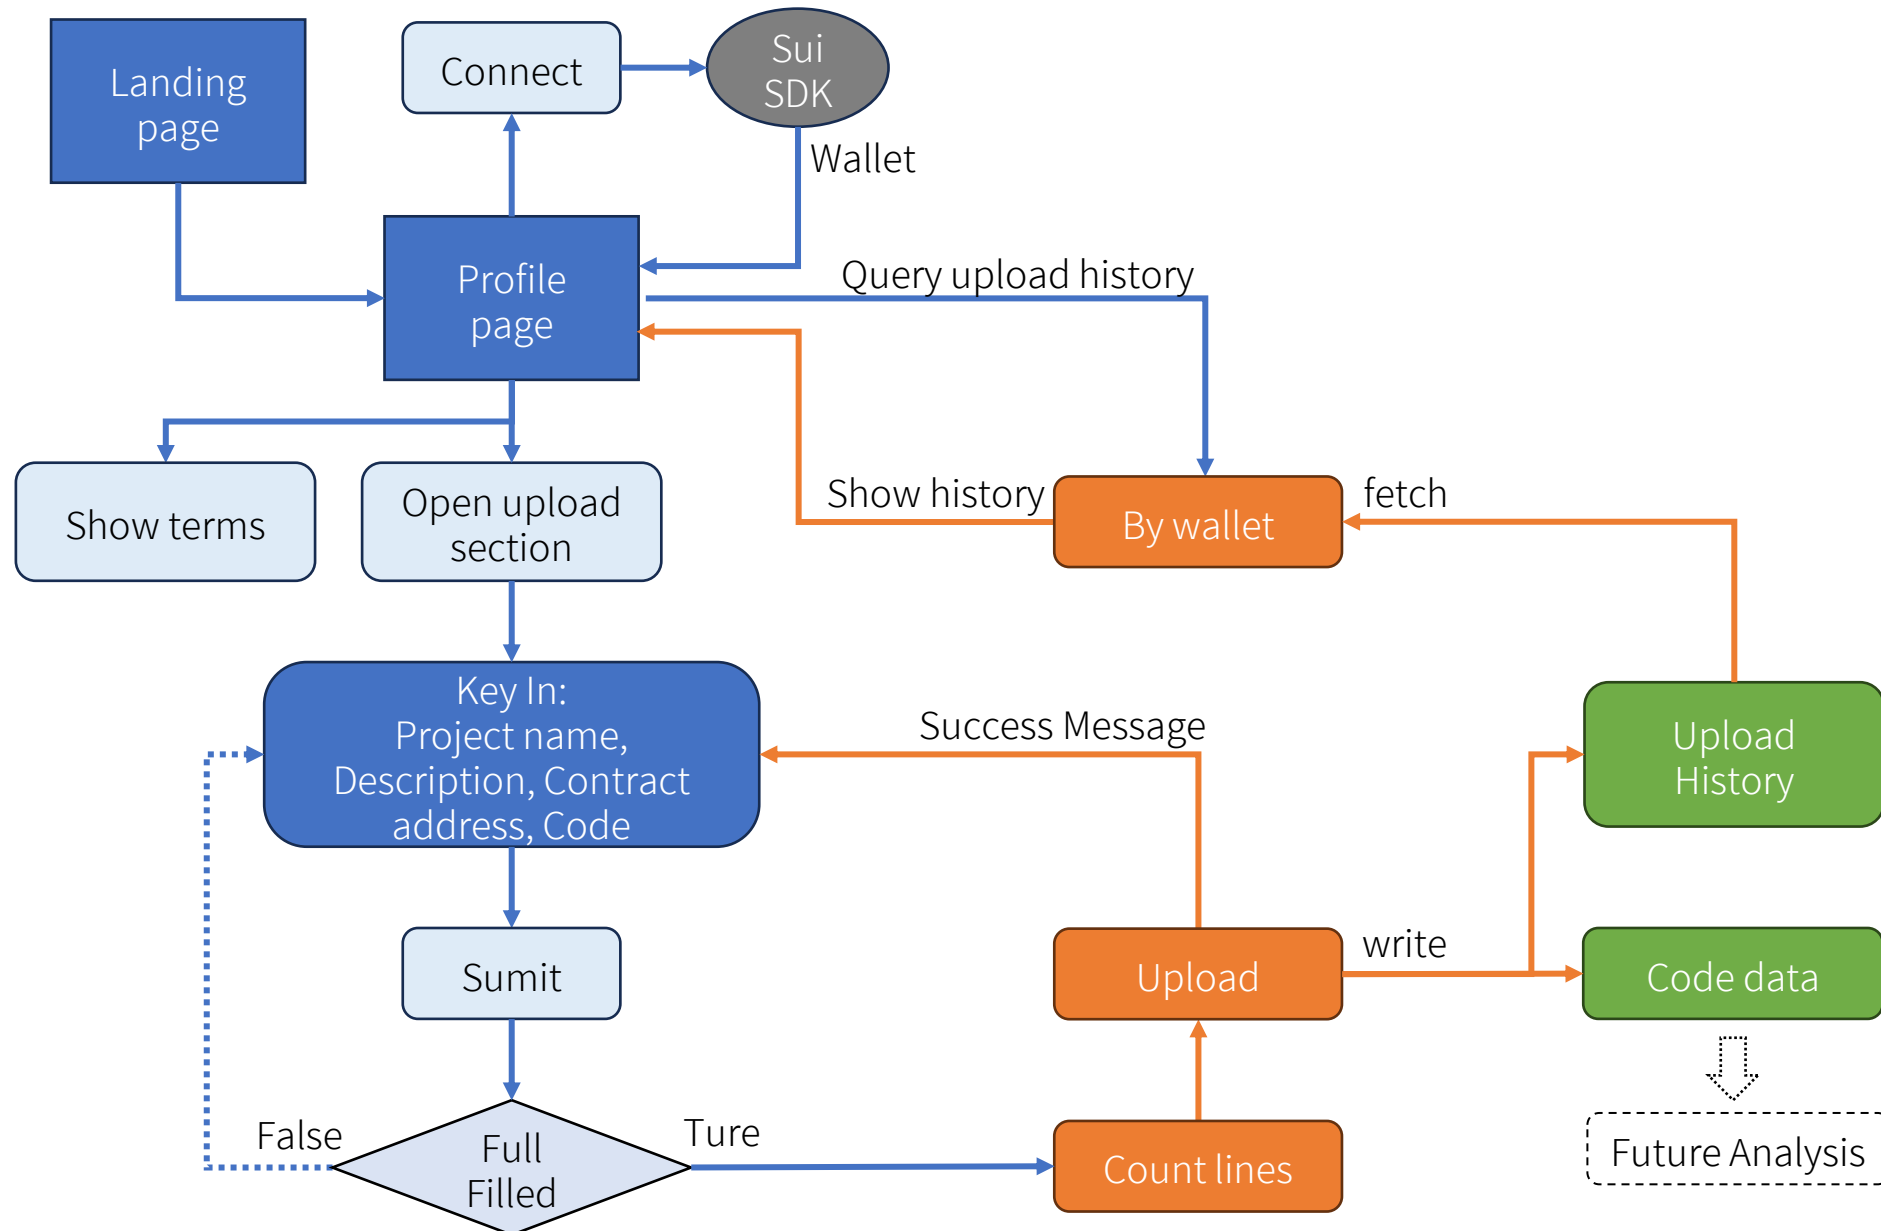

Error and Error,  
again and again.

## Frontend Netlify

## Backend Netlify Functions

## Database AWS DynamoDB

# Site operation map

# Strategy

## Build Datasets

Collect on-chain Sui Move codes and make datasets.

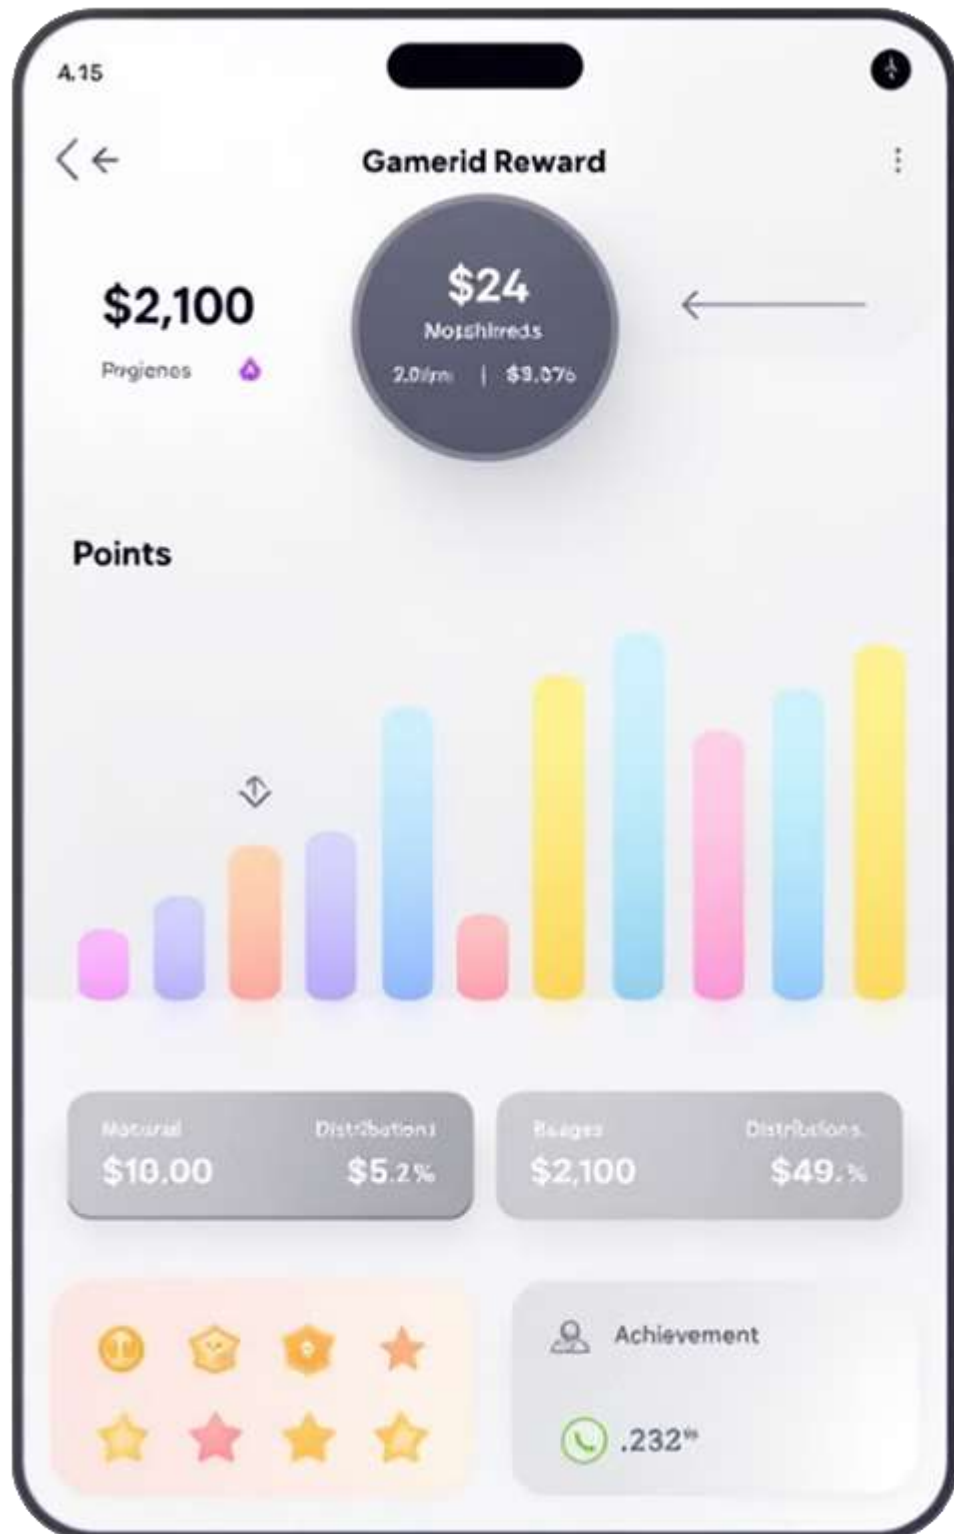

## Tuning

Tune a opensource model to test the performance and promoting.

## Reward

Builders receive royalty when their code contributes to our project.

# Score calculate

100

Basic

Each on-chained contract  
will get basic points

+1

per Line

Each meaningful line of  
codes will get one point

+ Bonus

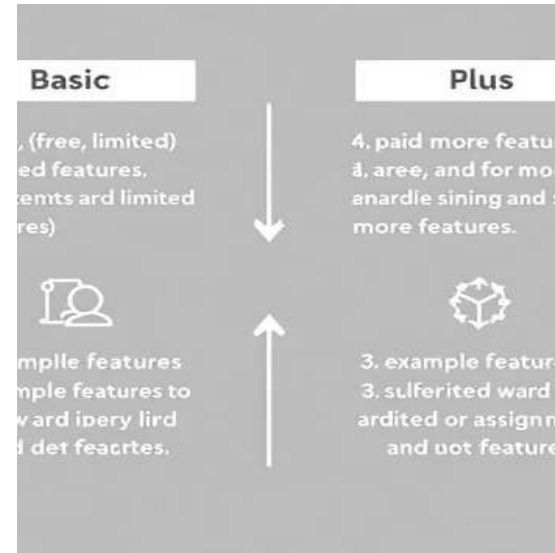

After analysis  
more contribution get more points  
(AST+SHAP)

# Income

## Authorizing

Lease or dataset for royalty.

## Freemium model

Tune opensource models and build a AI service.

## Copying

Extends business model to other domains.
